

SO THAT IN OUR GENERATION, EVERY MAN, WOMAN AND CHILD IN OUR COMMUNITIES WILL HEAR A COMPELLING PRESENTATION OF THE GOSPEL, OFFERED BY A PERSON LIVING A COMPELLING LIFE IN THE GOSPEL, AND IT WILL BE DONE IN SUCH A WAY THAT PEOPLE SAY THE CHURCH IS THE BEST THING THAT EVER HAPPENED IN OUR COMMUNITIES.

Living "Sent"

Missional is a way of living and being. The basic idea is that missional is the "activity of a missionary." You are part of a local movement designed to explore that thought ... **what would it look like if we truly to adopt the mindset of "living sent" in our neighborhood?** How would we act? What would we do? What would our priorities look like? Journey with us in the Lighthouse Project as we hope to learn to express this way of living ...

Early Lighthouse Reports

- ✚ One lighthouse used their list to invite neighbors to a barbeque at their place – just to get acquainted!
- ✚ One reports that they are planning a "Soup Night" where neighbors can drop in for a mug of fresh made soup.
- ✚ Another reports that they use their list when they walk for exercise, and then pray by name as they pass neighbors homes. This helps them learn names and connect them to the homes they live in.
- ✚ One has highlighted their closest neighbors on the list and added spouse and children's names that they know and started praying by name for them too.

Tips on using your prayer list:

- ✚ Place your list in a place that will allow you to see it and use it often.
- ✚ Choose who you want to pray for ~ and pray at least once every week.
- ✚ Make corrections, fill in any gaps, add spouse, children, pets... ages, etc. It can get messy – and that's great!
- ✚ Let the guide help you learn names. Use their names whenever you see neighbors.

Connecting With Other Lighthouses

With only ten host homes lined up, we've been waiting to grow the number across the city until there were enough for everyone to be a part of a small neighborhood gathering. However, we'll go ahead and let those neighborhoods with hosts begin without waiting for city-wide coverage. Host neighborhoods will be kept small, so many of us will not have host homes at this time. That does NOT have to stop the rest of us from praying and beginning to reach out with neighborhood connections!! **Sneak Peek: This Fall watch for the launch a lighthouse based city-wide food drive.**
